SUMMARY

Computer Science **undergraduate student** with practical experience in developing **responsive and user-friendly web applications**. Proficient in **HTML, CSS, JavaScript, and React**, with hands-on exposure to the **MERN stack** through academic and internship projects. Strong understanding of **front-end development** principles, **version control**, and clean code practices. **Passionate** about learning **modern web technologies** and **contributing** effectively as a **Web Developer Intern**.

EDUCATION

B.Tech in Computer Science and Engineering | UIET, Kurukshetra University, Kurukshetra | 2023 – 2027 **CGPA: 8.98**

WORK EXPERIENCE

Web Developer | E - Cell, UIET Kurukshetra | April 2024 - September 2024

- Developed and maintained responsive web pages using HTML and CSS.
- Improved website usability and performance through optimized front-end design.

Web Developer Intern | Oasis Infobyte | July 2025 -August 2025 |Remote

- Design and implemented a responsive tribute webpage using HTML and CSS.
- Delivered project within deadline following internship guidelines.

MERN Stack Intern | Webstack Academy |Sep 2025- November 2025 |Remote

- Built a full-stack Airbnb clone using the MERN stack.
- Developed dynamic, component-based architecture using React.js

ADDITIONAL INFORMATION

- Secured **2nd position** in ISP-43 (Internshala Student Partner Program) for consistent performance, timely task completion, and active participation in the First Training Contest (FTC)
- Completed an AI Automation & Business Intelligence Internship at **IBM SkillsBuild and CSRBOX**, developing intelligent workflow solutions using **n8n** and OpenAI.

PROJECTS

AI Automation Workflows using n8n | IBM SkillsBuild & CSRBOX Internship

[Kirti391/n8n-workflows-ibmskillsbuild](#)

- Developed workflow automation systems using n8n, OpenAI, Google Sheets, and Gmail APIs.
- Automated hospital management and food redistribution processes using AI-driven decision making.
- Integrated real-time notifications, data tracking, and business workflow automation.

HomelyHub | MERN Stack Web Application

github.com/Kirti391/Homely_Hub

- Developed a full-stack web application (Airbnb clone) using the MERN stack.
- Built responsive and reusable UI components using React with component-based architecture.
- Implemented RESTful APIs and core booking functionalities to simulate a real-world rental platform.

Simon Says Game | Interactive JavaScript Application

github.com/Kirti391/SimonsSays

- Designed and developed a browser-based interactive game using HTML, CSS, and JavaScript.
- Implemented DOM manipulation, event handling, and game logic for real-time user interaction.
- Applied responsive web design principles to ensure cross-device compatibility.

To-Do List | Interactive Web Application

github.com/Kirti391/ToDo-App

- Designed and developed a dynamic task management application using HTML, CSS, and JavaScript.
- Implemented Add, Edit, Delete, and Complete task features using JavaScript.
- Used JavaScript DOM manipulation for dynamic user interactions.

SKILLS AND CERTIFICATES

- **Skills:** HTML, CSS, Bootstrap, JavaScript, SQL, PHP, React, MongoDB, Terminal, Git & GitHub, Tailwind CSS , Python, C, C++, OOPS, Java, n8n.
- **Certifications:** Responsive Web Design-FreeCodeCamp, Internship and Job Preparation Training- Internshala, Ethical Hacking, Internshala and NSDC & Skill India, Google Analytics, IBM Professional Development and Career Readiness.
